## VISIT OF EDUCATION SECRETARY, GOVT OF INDIA TO ICONIC OAV

Mr. Sanjay Kumar, Secretary, Dept. of School Education and literacy, Govt. of India and Prof. Dinesh Prasad Saklani, Director, NCERT, New Delhi and Chairperson, NCTE (additional charge) paid a visit to ICONIC OAV, Bhubaneswar on Dt-03 January 2023. They inspected the science laboratories, computer lab, classrooms and the library. They observed classes. They interacted with the students and teachers about the ongoing teaching-learning process at the establishment. They were extremely delighted and satisfied with the academic and administrative activities of the Vidyalaya. The team was accompanied by Ms. Aswathy S., Commissioner-cum-Secretary, Dept of School and Mass Education, Mr. Amarjit Jena, CEO, MO School Yojana and Mr. Sangram Keshari Mahapatra, the State Project Director, OAVS, Bhubaneswar.

The team immensely appreciated ICONIC OAV, Andharua. The Honourable Secretary from the Govt. of India remarked-"Had an opportunity to visit ICONIC OAV, Andharua. An interesting and meaningful intervention of Govt. Of Odisha to give a fast-track movement to gifted children. My best wishes for today." The esteemed Director, NCERT, Prof. Saklani observed-"Visit to ICONIC Odisha is impressive. Such schools are doing good and more such schools are required. The school is doing the best service to the cause of education."

74th Republic Day, 2023 observed at OAVS Head office in presence of Shri Upendra Tripathy, Hon'ble Adviser, OAVS, Shri Sangram Keshari Mohapatra, SPD, OAVS and other officials & staffs of OAVS.

## HON'BLE SPD's TOUR OF GAJAPATI THE VISIT: A REJUVENATION

The 21st of January 2023 witnessed a red lettered day in the history of OAV Allada when it was assigned a visit by Shri Sangram Keshari Mahapatra, Honourable State Project Director, OAVS. It was the very first occasion in the history of the Vidyalaya ever since it has come into existence that any dignitary of such a cadre visited to the Vidyalaya. It also proved an alluring day in the late winter of the year because of observation of the Gajapati Utsav in the District Headquarter at Paralakhemundi and spectacular performance by the little moon dance group of OAV Allada in the cultural epitome of the district gathering followed by showers of appreciation from every corner.

The must awaited moment rang the bell at 10AM when the dignitaries stepped in the Vidyalaya campus. OAV Allada welcomed Shri Mahapatra and Shri Pradosh Nayak, District Education Officer, Gajapati with every possible pomp and splendour. The welcome started by Mr Sk Maimur Sultan, Principal with the guard of honour given by the Scouts. With the utter happiness of all the Vidyalaya fraternity, the guests were taken to the stage.

A special assembly session was arranged for the day. Started with the OAV Anthem song by the musical group of the Vidyalaya, the house in charge of the week carried on the assembly formalities. Then there was a highly constructive interaction between the guests and the students. Shri Mahapatra addressed to the students, adjusted in colourful arrays showering knowledge and blessings to have confidence on themselves and not to lose scientific temper which could help individuals to achieve the goals set in the appropriate manner. ( Cont. PAGE-2)

## HON'BLE SPD'S TOUR OF GAJAPATI...

“Extensive gain of knowledge for a healthy mind carries as much importance as balanced diet required for a sound body. The life story of great scientists teaches us all these words of nectar. Hence we should be hungry for reading, should never give up our hunger to gain knowledge.” These words from Honourable SPD not only impressed the students but also created magical effect over all present in the session. The program was anchored by two young sensations of class 12th Namely Rokkam Tribhuneswari and Roopak Kumar Patra, Scout commander. The performances of the students were highly admired by the guests. A class room visit session with Teachers were taken off by the SPD, then after a sapling was planted in the Vidyalaya premises followed by a photo session with all the staff members. A day earlier, Mr Mahapatra had visited OAVs at Chheligada of R Udayagiri block, Parimala of Nuagada block and Kaithapadara of Rayagada block guided by the District Education Officer following the protocols previously set by the District Administration. The scenic stage of Gajapati Utsav in the evening was adorned with the presence of Mr Mahapatra as the Chief Guest cum Inaugurator. His speech on the History of Gajapati Empire and research on the great dynasty enchanted thousands of hearts present in the gallery. Overall, the tour of Hon'ble State Project Director, OAVS to the district of Gajapati brought vigour of intellectual and cultural illumination in the atmosphere that impressed not only the OAV companionship but also the whole educational Diaspora of the district making the days really memorable forever.

## ACHIEVEMENT OF OAV RENGALI IN TERRE OLYMPIAD

TERRE Olympiad (An environmental theme based online quiz competition) was organized by TERRE (Technology, Education, Research and Rehabilitation for the Environment) Policy Center, Pune. The examination was divided in three categories such as Sapling (5th to 9th), Plant (10th to 12th) and Tree (Undergraduate) students. TERRE Olympiad is an online national level quiz competition based on environment, forest, wildlife, climate change and environmental issues. From OAV Rengali Sambalpur 444 students had registered and appeared exam. Out of them 18 students were selected for final round (15 students under sapling and 2 students under plant). For larger participation and better performance by students, Odisha Adarsha Vidyalaya, Rengali was selected for the award under the category of “Difficult Area Participation” for TERRE Olympiad 2022-23. The award was given in TERRE Olympiad Award Ceremony 2022-23 which was held on 20th January 2023 at Patrakar Bhawan, Pune by the hands of former Environment Minister Shri. Prakash Javedekar.

## A NEW PATH WAY FOR COMMERCE OAVIAN

Various reports emphasize that India needs to build an innovative knowledge based economy that provides sustainable employment opportunities. Opportunities are everywhere, it is significant that how one can grab that opportunities. The present article focuses on various career opportunities available for commerce students. There are actually a number of career paths available to commerce education. The scope of commerce education is very wide. Commerce is that branch of knowledge which provides insight to self-reliant. The following tree diagram describes different career opportunities for a student after completion of +2 commerce.

If a student wants to pursue professional courses like CA, CS, CMA, then he/she can join after +2 or B.com. If a student wants to enter in to a corporate job then he/she can go for BBA or B.com after that can join MBA with different specialization as per their interest like Finance, Marketing, Human Resources and Operation. If a student wants to enter in to academics then he/she can go for M.com and Ph.D. after B.com. There are different other disciplines are available for students as per their interest like mass journalism, post-graduation course for rural development, LLB, LLM, courses for Entrepreneurship development and many more which are offered by different colleges and universities in regular as well as distance mode. This is all about degree and certificates courses, meanwhile if we

talk about business, entrepreneurship or startup a student can start after or during B.com because the basic knowledge about business, sources of funds, wealth creation and dealing with customers are already taught in basic level. In spite of these opportunities there are different challenges too with commerce education. In our society it was found that many of the students and parents are unaware about commerce education and at the same time students are very reluctant to choose commerce as a career option. In our society people are always thinking about getting or seeking jobs but nobody think about providing jobs. Now this is the time to change the stereotype mindset of people. An initiative taken by Odisha Adarsha Vidyalaya Sangathan (OAVS) by introducing commerce discipline in 30 schools located in rural areas really a great step forward to change the mindset of rural and poor people. It added new feather to commerce education in rural areas.

Raj Laxmi Barik  
PGT Commerce, OAV, Rengali

### What is meant by A career opportunity?

- Career opportunities refer to any opportunities that take you closer to your career goals.
- This can be a job, an internship opportunity or a training programme that helps you excel in your career.

### The Benefits of a Career That Fits . . .

- You enjoy better health, a longer life, more vitality
- You have enhanced personal and professional relationships and are more fun to be around
- You're more successful and more productive
- You have heightened self-esteem
- You become a better role model for people of all ages
- You lead a life that counts
- You look forward to life
- You have a deeper, richer, more authentic sense of humor

### The Costs . . . . .

- You would have to control your impulse to constantly remind your friends how much you enjoy your career
  - You would lose some of your best reasons to complain
  - People will talk behind your back
  - You will not be a member of the biggest, most popular club
  - It takes more heart, more energy, and more commitment
  - You would have to exchange comfort for vitality
- Below are some common career fields and examples of jobs that belong to each category:

#### 1. Architecture and engineering

Architect, Civil engineer, Landscape architect, Sustainable designer, Biomedical engineer

#### 2. Arts, culture and entertainment

Singer/songwriter, Music producer, Art curator, Animator/video game designer, Filmmaker, Graphic designer, Fashion designer, Photographer

## Career Opportunities in Today's World

### Beatboxing : The Rhythm of Voice

PRAJNAMIKA SINGHDEO  
TGT-ENGLISH, OAV, KHANDAHATA, ANUGUL

Every human being is born with a destiny but he chooses his career as per the talent and opportunities that takes him towards his destiny. Career simply means to pursue something for earning. It may be a job, business or any activity that gives you bread and butter along with the chance to fulfil your passion.

Nowadays planning a right career is though not difficult but very inexplicable. It's only because we have many choices and tough competitions that comes with perplexed decisions. Peer pressure, over expectation of family members and the unfulfilled dreams of parents give a great challenge to the child.

Everyone can't be a doctor, engineer, scientist or entrepreneur. So the most crucial time for a person after completing the desired qualification is to pursue a career. Career opportunities are many so also the competitions. The opportunities will take you towards your goal, ambition and passion.

Among the most uncommon careers, one is Beatboxing. Beatboxing is a musical art form that uses the vocal tract to mimic percussion sounds and other sound effects using one's mouth, tongue, lips, voice etc. It is a skill that requires an incredible amount of control over the vocal chords. Beatboxing began in New York. But now many Indian youngsters are getting name and fame in this field. It is also known as vocal percussion. Some international beatboxers like ReepsOne, Beardyman, TomThump and some Indian Beatboxers like Bhabesh Sharma, Divyansh Kacholia, ShivrajNatraj and many more are there who are pursuing their successful career in this field.

With growing popularity of Beatboxing in India, a few platforms to help promote the art have emerged. BeatboxIndia is one of the largest Beatboxing organisations in the subcontinent and it has branches all over India. Sometimes it is found that our Indian Beatboxers create something new using the Indian folk beats with western rhythm. There are also many international contests organised every year for the promotion of this talent. Many international and national Beatboxing organisations are spreading awareness across the country to take the art in the leading edges of the music industries.

## Career and Career Choice

KAMALAKANTA MOHANTA  
CLASS: IX (B)  
OAV, SANSOLE, SAMAKHUNTA, MAYURBHANJ

Career is an important aspect of any person's life. It determines the kind of lifestyle one will lead and his/her position in the society. Career is usually associated with the professional aspect of a person's life.

Finishing school is the beginning of the independent life for millions of school graduates. Many roads are opened before them: technical schools, sports schools, colleges, universities. But it's not an easy thing to choose a profession out of thousands existing in the world.

Earlier it was believed that those who go for science stream after their 10th standard have a lucrative career ahead, the ones who go for the arts or commerce stream are not likely to grab very good opportunities. This did hold good until a few decades back but not now. There is immense scope in every stream these days. Here are the various career opportunities available based on the stream we choose:

### Arts and Humanities Stream:

There is a wide scope for students who opt for Arts and Humanities after class 10th. One can go for Bachelor's of arts (BA) to specialize in the field of his/her interest after completing 12th standard. BA in English, Sociology, Political Science, History, Social Work, Economics, Geography, Philosophy, Fine Arts, Library Science, Journalism, and Anthropology are among some of the options. One can also go for Diploma courses to seek vocational knowledge and training in different fields. Diploma in Travel and Tourism, Diploma in Interior Designing, Diploma in Foreign Language, Diploma in Event Management, Diploma in Hotel Management, Teachers Training (TTC), Diploma in Air Hostess and Flight Steward are among some of these courses. While the duration of the degree courses may be 3 to 5 years, the diploma courses can mostly be completed in 6 months to 2 years time. A host of good opportunities lie ahead for those who opt for any of these courses.

### Science Stream:

You can pursue a degree in engineering post 12th standard. Electrical, electronics, chemical, mechanical, civil, petroleum, aerospace, biotechnology, mining engineering, textile, agricultural, production, power and marine engineering are among some of them. A qualified engineer in any of these fields can work as consultant, assistant engineer, chief engineer or supervisor.

Besides, one can go for a B.Sc. degree such as B.Sc. in physics, chemistry, mathematics, biotechnology, forestry, IT, computer science, aviation and electronics to name a few. You can build a career in teaching or research and development after pursuing any of these courses.

BCA is a good option if you have a technical bent of mind. IT companies seek BCA graduates. Acquiring MCA degree after this boosts your chances of grabbing a good opportunity. Olds. Bachelor of Architecture, Bachelor of Pharmacy and Commercial Pilot Training are among the other fields one can go for.

### Commerce Stream:

Those who opt for the commerce stream after class 10th also have a host of opportunities to look forward to. Here are some of these: Chartered Accountancy (CA), Company Secretaryship (CS), Cost and Work Accountant (CWA), Bachelors of Commerce (B.Com), Bachelors of Business Administration (BBA), Bachelor of Business Management (BBA), Bachelor of Management Studies, Hotel Management, Law (LLB) and Retail Management. A career in any of these fields is respectable as well as lucrative.

For selecting the right career path, one needs to be proactive about his/her decision because this choice will change the entire life. A good place to start is some self examination. There are good career opportunities for qualified and skilled candidates in India as well as abroad. However, the competition is tough. So merely enrolling to a good course would not help. You must work hard and pass the same with good in order to build a strong career.

*"God gives the nuts but he doesn't crack them,  
"Miracles sometimes occur,  
but one is to work terribly hard for them".*

## CAREER OPPORTUNITIES IN TODAY'S WORLD

Career is very important thing in one's life whatever career path we choose to follow, it will impact our life greatly .Our career will define our status in society in addition to our lifestyle. In other words, our career will determine our social circle and relationships.

Therefore, it is extremely important to choose the correct career path from a very young age, we aspire to be something or the other. While someone aims to be a doctor, some wish to become a painter. Our career choice depends on a lot of things. Thus, it is important to consider all factors before choosing a career path .

We must consider a number of factors before deciding on our career. Each factor plays a significant role in our choice . Firstly, always assess yourself thoroughly . We must understand our area of interest to choose a career. For instance, someone who dances well can surely become a doctor, but his interest will always be in dance . Thus, ensure that you have the Calibre to perform well in the field. You should choose one which comes from your area of interest itself. After this, you look for the opportunities available as per your area of interest.

### Entrepreneurship : New Career Goals

Career is an important aspect of any person's life. It determines the kind of lifestyle one will lead and his/her position in the society. while everyone dreams of a good lifestyle not everyone is able to build a strong career to ensure the same.

Everyone in life has their own purposes. That purpose is in the form of a career. My purpose is entrepreneurship. An Entrepreneur is a person who organises and manages any enterprise. The biggest reason is that I have always enjoyed business related classes and books. Another reason is because being an entrepreneur means you are a leader. I want to become a role model for the future generations.

I believe one cannot consider oneself an entrepreneur, unless one is a successful entrepreneur. Entrepreneur is superior to a businessman in their field.

People want to start their own business for many reasons. The main reason people go into entrepreneurship because of income. The potential income for an entrepreneur is limitless. Entrepreneurs have to invest a lot of their time into their business. This means less time for another works. In other to get a profit out of business, you have to invest towards it. Once the business starts growing and begins to make revenue, then the marketers can invest more of their personal capital into their service.

Many successful entrepreneurs are willing to take the risk and develop themselves to change their current lives to become even better. A person does not need a high qualification or a super brain, all he needs to do is to go for the business putting all his ideas, innovation or money to make it become better and serve their customers

with the best services.

To be a successful Entrepreneur I think you must have communication skill, patience, have passion for it. Entrepreneurs are the future of our country; they help to create millions of jobs and contribute much to our economy.

### REQUISITON FOR GOOD CAREER OPPORTUNITIES

Career is an important phase of every person's life. Choosing right career option is very difficult. The work you choose to do must be carefully planned. Career opportunities refer to opportunities that take you closer to your career goals. We are still in our school, when we must choose between the science, commerce and humanities stream that mainly influence the career path. We must be careful while choosing our career we must not enter any field just because our parents want us to go for it. These days career is given a lot of importance in a person's life.

Career opportunities are available in different sections. Some common types of career fields and examples of career opportunities are: Agriculture, food, natural resources; Design and art; Construction and design; Education, Government, and public service; Business management and human resource; Communication and sales; Finance; Health and wellness; Hospitality and tourism; Logistics and travel; Manufacturing; Science mathematics and technology.

Most importantly, one should acquire the skills for the career option one is interested in. Ensure you earn the qualification and degrees for it. Training programmes enhance one's skills. This will give you an upper hand in knowing whether you are correct in choosing the specific career plan.

Furthermore, create an impressive resume which can help you to get the opportunities.

CLASS-XI  
OAV KURSUD, Titilagarh, Balangir

**CAREER: FOCUS ON JOBS OFFERING THAN SEEKING**

Choosing the right career options is like playing a strategic game. We all know that we will spend one-third of the average time of our life pursuing certain kinds of work. After knowing that a lot of our waking hours will be spent at work which would be donated to a firm or organisation and we will get salary for having that dedication towards our work.

A career gives a man or woman that much respect in this humanoid world for which he or she is aspiring to. All humans have talent and skills but most of the time they are unable to pick a suitable career according to their skills. In today's education system, we all are taught to choose a career plan from the very beginning of our academic life and persuade it accordingly.

With the vast development in almost every aspect, our world has reached beyond our imagination because of which there is at least one career plan for each and every skill we can think of. This ranges from simple text typing to high-end web development. Various private organisations across the world have emerged and taken responsibility to develop certain websites which would pay every job seeker for his/her work as per the given time or effort. These organisations are highly praised and are helping in giving birth to many more like them. Besides this, various online platforms have come out to help our young generations to choose their careers. They also help them to learn the required skills needed to get their dreams.

But with the rapid expansion of trade communication across the world, the spirit of Entrepreneurship is spreading rapidly among today's youth. They are focusing on providing jobs rather than job seeking. Entrepreneurship includes freelancing, affiliate marketing, drop-shipping, business marketing and lots more. It's all happening because nowadays people are more interested to be the Boss but not an employee.

**CURRENT TRENDING CAREER OPPORTUNITIES**

Choosing the right career options is like playing a strategic game. Most of us spend over one-third of our lives working. Knowing that a lot of your waking hours will be spent at work, the career someone chooses to do must be carefully planned.

New career options originate as industries adapt to the changes in the market or the world in general. The career options available today may evolve into different roles, creating more opportunities in the future.

Top Career Options in future are Artificial Intelligence (AI) and Machine Learning (ML) Specialist, Data Scientist, Software Developer, Cyber Security Expert, Cloud Computing Experts, Digital Marketing Specialist, Management, Web Development, Product Manager Medical Professional, Medical Technologist, Mental Health Specialist etc.

Despite all the changes and shifts in culture, some professions have taken the forefront over others becoming some of the most sought out careers of the future.

**LIFE**

Life is a journey, with ups and downs,  
There are lots of hurdles and turn around.

We learn and progress with each step we take,  
With progress a sense of honor we make.

We follow the path followed by all,  
Without any reason and sometimes face downfall.

Enjoy every moment, it is very precious  
Why people waste time isn't it suspicious??

The vastness of universe is still a mystery,  
The puzzle to be solved, with that of history.

Aman Sharma  
Class: XI Sc.  
OAV, Rengali, Sambalpur

**CAREER OPPORTUNITIES IN TODAY'S WORLD**

The appraisal of your skills is the first step in deciding on a career. You must understand in what you are interested and what you enjoy doing. Choosing an option of right career is just like playing a strategic game. Most of us spend over one-third of our lives working. Like a housewife is always engaged in working in the house, a good student busy in studying.

When you are going to work something you must ensure that the time you have taken is utilized in your work, so for this you must carefully plan. With the changing times and numerous opportunities available for one to explore, the world has broken away from what has been known to find the newest, more exiting career path. Students over generations have been told to follow their interests and dig deeper into what they love the most.

Finding new and improved ways to approach medicine and technology have given birth to many new careers that have given students new hope and parents an opportunity to step into a world that is fast-paced and driven by quick thinkers.

Despite all the changes and shifts in culture, some professions have taken the forefront over others becoming some of the most sought out careers of the future. Even in times of an unprecedented pandemic, it was these professionals who stood their ground to delve deeper into the challenges at hand and be the frontline warriors in a time of crisis.

Finding new ways to adapt some of the industries and professions that have seen a steady boom includes the likes of: Information technology, E-commerce, Data science and Actuaries, Software Development, Tutoring and Education, Counseling, Consulting, Hospitality, Robotics and Automation, Information security, Finance and Asset Management, Translators and Interpreters, Speech and Language Therapists, Web developers, Database administrator, Marketing and Operations Management, Content Writing/Technical Writing, Pharmacists, Epidemiologists, Computers systems Analyst... among numerous other.

While contemplating the question- which is the best career to choose in today's times, it's good to look and check options as given above before narrowing down to the correct and suitable one.

## बच्चे अनमोल खजाने

बच्चे दिल के सच्चे हैं  
वे हमारे भविष्य हैं,  
बच्चे नहीं हैं कच्चे  
उनमें हर गुण हैं अच्छे ।

सीखाता है बचपन सभी को  
भविष्य में है क्या बनना,  
बचपन में घरोंदे रेत के बनाते  
आगे राजमिस्त्री बन जाते ।

गुड़ियों का खेल खेलते हैं  
गुड़ियों को बनाते हैं,  
बनाने का कौशल सीखते हैं  
बचपन से ही घर बनाना सिख जाते हैं ।

बच्चे प्रश्न पूछते हैं  
क्योंकि वे खोज करते हैं,  
वैज्ञानिक गुण को उभारते हैं  
आगे वैज्ञानिक बन जाते हैं ।

साथियों को पढ़ाते हैं  
बचपन में खेल खेलते हैं,  
पढ़ते पढ़ाते बड़े हो जाते  
दुनिया को सीखाते हैं ।

बच्चे नीडर होते हैं  
पहाड़ को भी चढ़ जाते हैं,  
वीरता मन में होती है  
आगे सेना बन जाते हैं ।

नया कुछ करना सोचते हैं  
नया कुछ बोलते रहते हैं,  
सृजन शक्ति होती है  
आगे रचनाकार बन जाते हैं ।

मिट्टी के बरतन बनाते हैं  
मिट्टी के खिलौने खेलते हैं,  
बनाने का कौशल सीखते हैं  
आगे कारीगर बन जाते हैं ।

बच्चे हैं अनमोल खजाने  
हमें हैं उनको राह दिखाने,  
सच्ची राह पर से चलने  
अनमोल खजाने लगेंगे जगमगाने ।
