STUDENTS BRING LAURELS TO OAV, CHAMAKHANDI

28TH SUB JUNIOR NATIONAL

OAV, Chamakhandi continues to amaze and dazzle with outstanding successes, capping one victory after another in a broad range of beyond-the-classroom activities evidencing the Vidyalaya's commitment to provide opportunities to students to explore their interests, hone their skills, ignite their passions through hands-on and real world experiences that help them expand their horizons beyond the classroom walls.

The students have performed exceedingly well in various programs, prime amongst them being the National Sub-Junior Tennis Ball Championship' held at Dandaichata in Maharashtra. Two students had the proud privileges of being in the playing XI representing Odisha at National Level.

The students from OAV, Chamakhandi, Chatrapur comprised of Shreejit Behera and Tejeswar Sahu from Grade 10. What makes the Championship so distinctive and exclusive is that the students participated during the peak hours of ongoing examinations. They played with great spirit and skills. They represented the state and the vidyalaya with pride. They left with fighting spirit winning Bronze Medal.

Congratulations poured in from all Officials including Mrs. Yamini Sarangi IAS, Sate Project Director OAVS who remarked that the performances of the students reflected the importance and emphasis that the school places on the creative development of the students and said that the school has always provided the students with a platform to allow a free flow of their creative juices. She was profuse in her praise and felicitations to the participating students and the teachers who had trained them.

The participation and the success with flying colours of the students were posted on different social media platforms with adorable wishes by the Honorable CMO, Odisha and Department of Sports and Youth Services, Odisha.

Editor in Chief- Smt. Yamini Sarangi, IAS
State Project Director, OAVS

VISIT OF M.S. SNATA, ASSISTANT DIRECTOR TO OAV MANIPUR & OAV TETELENGA

Respected Assistant Director, M. S. Snata, OAVS visited OAV, Manipur & OAV, Tetelenga of Boudh district on Dt.- 10/11/2023. On her visit to OAV, Manipur she inspected and observed all academic activities like maintaining lesson plan, teacher and student's attendance register, official records and interacted with the students of Class X & XII. She also visited the girls' hostel and ensured to solve the issues raised by principal. During her visit to OAV, Tetelenga she inspected the classrooms, performance of students, official records and motivated the board appearing students for better results. She also felt delighted that the Vidyalaya is running very smoothly with co-operation of all staff members.

EXPOSURE VISIT OF STUDENTS OF OAV BENTAPUR, BALIANTA, KHORDHA TO THE INSTITUTE OF LIFE SCIENCE (ILS) BHUBANESWAR ON 04.11.2023

The students of OAV Bentapur, Balianata visited the Institute of Life Science (ILS) Bhubaneswar on the Open Day celebration on 04.11.2023 with an objective of fostering scientific temperament and to make them aware about the research works being conducted by the eminent scientists.

Every year ILS Bhubaneswar invites school and college students to ILS campus where they can interact with scientists and learn about their research activities. During this event, the students got an opportunity to listen to eminent scientists from various areas of Biotechnology and visited model laboratories demonstrating research activities of ILS which is both academically beneficial and enjoyable. The students attended a seminar that was taken by the scientist Dr. Rajeeb Kumar Swain regarding what is Open Day at ILS and the research being carried out. The session was followed by two more seminars by two other scientists Dr. Nivedita Jena and Dr. Mamoni Dash. The seminar delivery of Dr. Mamoni Dash was about the chemical bonding of molecules and polymers. The students actively participated in the interaction and their doubts being clarified by the eminent scientists.

Then the students attended the poster presentation presented by different research scholars of ILS on several topics like viruses, genetics, heredity, corona virus, grouping of blood, vaccines.

Last but not the least, students also got the opportunity to get the live experience by visiting model research laboratories with use of microscope, other scientific equipment.

STUDENT OF OAV KARAPALLI OWN STATE LEVEL SCHOOLS WEIGHT LIFTING CHAMPIONSHIP 2023-24

Raj Kumar Behera of class -X of OAV Karapalli, Rangeilunda Ganjam won the state level Schools Weight lifting championship 2023-24 in under-17 Boys category held at Govt Girls Highschool Berhampur Ganjam from 28th to 30th November 2023. The Championship was organized by Odisha State school sports association, Bhubaneswar. In the event he stood first

NDRF Team's Visit to OAV KARAPALLI, RANGEILUNDA, DISTRICT-GANJAM

On 30th November 2023 Thursday in the morning at 9.30 am National Disaster and Response Force team consisting of six members reached at Odisha Adarsha Vidyalaya Karapalli. The team headed by Vikash Saini the Sub- Inspector demonstrated various School Safety measures to the Children. The program was organized under the chairmanship of the Principal of the School Mr. Bibhti Bhusan Satapathy. The Team members were welcomed in the morning assembly with a huge round of applause. Sub - Inspector Vikash Saini made it a more attractive and resourceful session for the students with his witty words. He gave simple definitions of School Safety and Disaster Management and made the students participate in the process of demonstration. Most of the students were excited to participate in the various demonstrations. In the presentation Sub- Inspector Vikash Saini told the students about the need and importance of Disaster Management at school. He explained the causes of hazards in School and the safety measures to be adapted instantly within the resources available on the spot. Rescuing from floods using the devices such as life jackets tubes, plastic bottles, bamboos and how to hold them under the arm pit in order to float in deep flood water were explained in an interesting way.

In case of fire incidents how to extinguish the fire using fire extinguishers was very attractive. If any accident happens how to give first aid to the victim is very well demonstrated by the team. How to call an ambulance

and how to use stretcher was also demonstrated. How to perform Cardiopulmonary Resuscitation in case of pulse down was also very brilliantly shown. Also it was demonstrated to the students how to save the life of the victim by giving first aid so that we can save the life in snake biting cases. The program was adorned by Deputy Collector Madam of Ganjam District and District Program Coordinator of Disaster Management.

Finally a kit containing first aid and other Disaster Management devices were presented by Vikash Saini to the Principal and vote of thanks was offered to the team by the senior most teacher Mrs. Sujata Chakra ,PGT English. It was a learning experience for all students and staff.

Master Satyam Ojha (Class-IX) of OAV Jamdhar, Jajpur secured 1st position in the 20th State School Open Chess Championship

Jigyasha Padhi (Class-X) of OAV Jamdhar, Jajpur secured 1st position in Elocution in SAITED held at SAI International School, Bhubaneswar

Sriya Sucharita Behera (Class-IX) of OAV Jamdhar, Jajpur secured 2nd Position in Elocution in SAITED held at SAI International School, Bhubaneswar

INDIA IS AN EMERGING POWER IN THE WORLD

JAYANTA KUMAR SAHU,

PGT Biology, OAV Kursud, Block Titilagarh, Dist Balangir

For a decade India has been proposed as an emerging power in the world by several world leaders. To satisfy the criteria to be a world leader a state must have influenced Economic, political, demographic, military, and cultural richness. Several of the criteria are in favour though there are a few glitches. They are as discussed with the following headings

FACTORS IN FAVOUR

Economic factors:

After economic liberalization in 1991 and having the 5th largest consumer market the GDP of India is profoundly increased. There are record Income tax returns by July 2023. India has grown primary, secondary, tertiary, and Quaternary sector industries in the last decade. All these developments presumed India to be the 3rd global economy by 2027.

Science and Technology:

India is competing with the developed countries in the awareness and development of science and technology by providing sound platforms by establishing many internationally reputed universities, and institutes like IISc, IITs, AIIMS, IISERs, NITs, IISERs, NISER. India also established several research agencies like Department of Science and Technology (DST), Council of Scientific and Industrial Research (CSIR), Department of Biotechnology (DBT), Indian Agricultural Research Institute (IARI), National Institute of Pharmaceutical Education and Research (NIPER), Indian Council of Medical Education and Research (ICMR), Indian Space Research Organisation (ISRO), which provide funds for scientific research and established laboratories to provide facilities and resources. The work of ISRO is very commendable by the world. All the organizations trained thousands of young minds who further extended their skills both in India and abroad.

Railway Network and Mass Transit System:

The Indian railway is the lifeline of India It has impacted the public and goods transports and also favours tourism.

Demographic factors:

India has the largest population on earth. Again, it is the greatest source of English-speaking human resources not only to itself but also to the world.

Political factors:

India has stable politics that can be seen in its democratic foundation, diverse representations, and the continual engagement of citizens in the democratic process.

Foreign relations:

India's foreign relations are multifaceted, with diplomatic ties across the globe. The country maintains strategic partnerships with various nations, participates in international forums, and engages in diplomatic dialogues to address global issues. Key relationships include those with the United States, Russia, and neighbouring countries, and active involvement in forums like BRICS and the United Nations. Geopolitical dynamics and economic interests play a significant role in shaping India's foreign policy.

future generations.

Military factors:

India has a sizable and capable military, with strengths in manpower, diverse military branches, and strategic capabilities. The Indian Armed Forces include the Army, Navy, and Air Force, supported by modernization efforts and indigenous defense production. India's military strength is a significant factor in regional security considerations, and it participates in peacekeeping missions globally. However, ongoing modernization challenges and geopolitical factors also influence the assessment of its military capabilities

Nuclear Power:

India is a nuclear-armed state and has a well-established nuclear power program. The country conducts both civil and military nuclear activities. In the civil domain, India utilizes nuclear power for electricity generation, with a growing number of nuclear power plants. On the military front, India possesses a credible nuclear deterrent. The country follows a "no first use" policy, emphasizing the nuclear arsenal's role as a deterrent rather than an offensive tool. India's nuclear program is subject to international scrutiny and has implications for regional and global security dynamics.

Indian Culture:

India's culture is incredibly diverse and rich, reflecting the country's long history and the coexistence of various religions, languages, traditions, and customs. Some key aspects of Indian culture include: Religious Diversity,

Industry:

India is 2nd in the Iron and Steel industry and has a well-developed Rare Earth industry.

Energy:

India is rich in fossil fuels and worked a substantial amount in the fields of renewable energy.

Points against the rise of India as a superpower

Economic Disparities:

India faces significant economic disparities, with a large population still living in poverty. This socio-economic imbalance can hinder overall development.

Infrastructure Challenges:

While there have been improvements, infrastructure gaps, particularly in areas like transportation and basic services, pose obstacles to sustained growth.

Educational Disparities:

Despite progress, disparities in education quality and accessibility persist, impacting the country's potential to foster innovation and a skilled workforce.

Bureaucratic Hurdles:

Bureaucratic red tape and inefficiencies can slow down decision-making processes and hinder the ease of doing business.

Security Concerns:

India faces security challenges, including border disputes and regional conflicts, which can divert resources and attention away from economic and social development.

Environmental Issues:

Rapid industrialization and urbanization have led to environmental concerns, such as pollution and resource depletion, which can have long-term consequences on public health and sustainable development.

Political Fragmentation:

India's diverse political landscape can sometimes result in fragmented policies and challenges in achieving consensus on crucial issues, potentially slowing down progress.

Population Growth:

While the demographic dividend is an asset, the sheer size of the population poses challenges in terms of providing basic services, employment, and maintaining social stability.

Though there are several glitches as discussed by addressing these challenges India will have sustained and inclusive growth on the path to becoming a superpower.

PROGRESSIVE INDIA TOWARDS A SUPER POWER

SHREEMAA MIRA BARIKU,

Class IX A, OAV Oriya, Telkoi, Keonjhar

India is often referred to as an "emerging new nation" for its rising position in the global community and its transformation from a developing to a developed economy. India is a land of diverse cultures, religious communities and a country that has immense potential.

India is now witnessing rapid developments in the industrial, services, pharmaceutical and Information Technology sectors, which increasingly have been driving growth and contributing to its GDP. With the implementation of various reforms and initiatives, India has successfully opened its economic doors to the world, boosting integration with the global economy and enabling the nation to compete with other developed nations. Reforms in currency, tax, banking and financial systems, liberalization of trade policies, removing of foreign direct investment, and the emergence of private sector participation in the economy have been seen as key catalysts of the nation's transformation.

Furthermore, the spread of technology, digitisation and the increased reliance on digital platforms have been integral aspects that have allowed businesses, individuals and the economy to gain tremendous growth. The advancements in technology have been instrumental in connecting different parts of the country, reducing poverty and bringing about awareness about the importance of literacy for every citizen.

The nation has witnessed a great shift in terms of gender equality and the improved empowerment of women, the tribals and other marginalised people. The nation has seen a dramatic improvement in education, health and gender equality due to solid policy support from the government.

Overall, India's economic progress and its success story ties in with its polity, history and cultural plurality and together, these elements have made India's rise to power well defined and evident. The nation is moving towards becoming a superpower and it is only a matter of time before India becomes the biggest economy in the world.

INDIA: A RISING GLOBAL POWER

India is known for its rich history, diverse culture, and ancient traditions, is now steadily cementing its place as an emerging power on the world

stage. With a population exceeding 1.3 billion, India stands as the world's largest democracy, a testament to its commitment to pluralism and diversity.

Economic Ascendancy

One of the primary pillars of India's emergence as a global force is its robust economic growth. Over the past few decades, India has experi

enced substantial economic development, becoming one of the fastest-growing major economies worldwide. It's flourishing service sector, particularly in IT, software services, and telecommunications, has propelled India into the forefront of technological innovation.

Technological Advancements

India's progress in technological innovation has been remarkable. The country has nurtured a vibrant startup ecosystem, fostering entrepreneurship and innovation across various sectors. Additionally, India has

made significant strides in space exploration, with the Indian Space Research Organization (ISRO) consistently achieving milestones, such as successful satellite launches and ambitious missions to explore celestial bodies.

Cultural Influence

The influence of Indian culture revolves the globe. From Bollywood films captivating audiences worldwide to the popularity of yoga, meditation, and Indian cuisine, the country's cultural footprint is undeniable. India's

soft power extends beyond its borders, attracting interest and admiration from diverse corners of the world.

Diplomatic Stature

India's diplomatic presence has also gained momentum. Actively engaging in multilateral forums and forging strategic partnerships, India seeks to play a pivotal role in shaping global policies. Its emphasis on maintaining peaceful relations in a complex geopolitical landscape has gained respect and attention from other nations.

Challenges and Opportunities

Despite its progress, India faces various challenges, including socio-economic disparities, infrastructural constraints, and environmental concerns. However, these challenges also present opportunities for growth

and innovation, which the country is actively addressing through policy reforms and sustainable development initiatives.

Conclusion

India's journey as an emerging global power is marked by resilience, adaptability, and a commitment to progress. As it navigates the complexities of the 21st century, India's continued advancements in various spheres position it as a significant influence in global affairs, shaping the narrative of a new world order.

VOICE OF A GIRL

URMILA SAHOO

PGT English, OAV Haiota, Polasara, Ganjam

Being a daughter I was born to my parents
 Eyes wide opened not clearly and my grand parents
 wished, "Oh! Why u were not a boy?"
 To privilege their customs & family traditions.
 When I grew up a little, the education came in discrimination.
 "Oh! What will you do to your studies?
 Learn some basics for household duties."
 My books became friends and elder to teach me my lessons.
 My tears and complexities hover over my knowing all materialistic
 frustrations.
 Growing age showed me the redness of my periods.
 People commented on the straps out and my beautiful ugliness.
 By mistakenly show down curious.
 In an unknown age of innocence, I ruined by many known & unknown
 hands differ.
 All made me guilty without my guilt in the eyes of others & made a doll
 of wood to halt & suffer.
 When I touched sixteen, without my knowledge they wanted to give
 my hands.
 Not knowing the guy properly, only seeing the income as well the filled
 pockets.
 Every night willed or not but the skin
 Molested and bruised,
 Not for the sake of pleasure or smile
 But to win the male over female entity.
 After being a mother had fired all the desired paths and premises.
 Ambitions ruined determination demolished & dreams raped.
 Being middle aged, my opinions became valueless and views
 unnoticed.
 Unheard my sing song inner voice cried for liberty though failed and
 curtailed.
 Here came the last chapter of life to be read and played in oblivion in
 a peaceful sleep.
 Limbs now energiless needing assistance.
 Yet thrown to the home oldage to be nourished, survive and pass.
 A question still lingers each time
 From birth to soil of mine...
 Where is my home and where is my voice ???
 Where is me, my life and where is my choice???

Can India Be An Emerging Power ?

Swadesh Barik

Class-IX, OAV Parmanpur ,Maneswar, Sambalpur

India can be an emerging Super power of the world if its citizens are educated and employed rather than seen as a burden. China and USA are currently the super power countries. We may ask a question 'what did they do differently to become the super power?' The answer is their "Infrastructure".

We know that India can't forever depend on few of its megacities. To join megacities to other cities and towns and to make new industrial hubs, the central and the state governments should start working rapidly. In 2014, we were constructing highways at 16 KMs per day but in 2022 it has increased to 37 KMs per day. We made world record in making fastest highways.

On the other hand, 18% of business cost is because of transport. To solve this problem, the central government launched many projects like \$8 billion golden quadrilateral project, The Mumbai-Delhi expressway through 5 states, Sagarmala Project and other 574 small projects.

In India, there are 111 rivers which can be used for various purposes like transport works. Let's take the example of China. In China, 47% of transport is being done through the river ways. If this can

happen in India, then 4 million people can be employed and the unemployment problem will be far away from us. Infrastructure, Transport and Trade can make India a strong, powerful and economic country of the world. We know that India is already the biggest democracy country in the world.

So, the countries like USA, Russia, Israel, UK, Japan and Australia support India and they are the powerful partners of India. If the people of a country are considered an asset, then the future is bright. But if the people are considered as liability, then the future will be dark. In this way, India can be an emerging Super power of the World.

UNITY IN DIVERSITY

DIBYANSHA SAHOO

Class-7, B

31st of October
 is the birthday of Sardar Patel
 Day of our unity, day of our victory
 Divided by cultures
 Divided by languages
 But we are one.

We all are Indians.
 We are not Hindu
 We are not Muslim
 We are not Sikh
 We are not Christian
 We are not South Indian
 We are not North Indian
 We all are one
 We all are Indians.

Unity is strength
 Unity is togetherness
 We all are equal
 We all are one.

If we are united,
 we are not frightened.
 Let's join our hands together for unity.
 It is the way of our victory .

INDIA AS AN EMERGING POWER OF THE WORLD

SHRIYANSI SIKHARI SAHOO

Class-7, B

Much has been written since the mid-1990s about the arrival of India on the world stage. Mostly it portrays the best possible scenario for the country in the second half of the twenty-first century . In the best possible scenario, India would be able to negate the extra regional forces in South Asia, act as an influential player in the extended neighbourhood of South-East Asia ,Middle-East, Central-Asia and Africa ; and figure as a power that other major powers, particularly the United States , would take into account while formulating foreign and military policies in the world . There have been a few dissidents however, warning about the possible crash of these highly inflated hopes ,largely due to the perverse levels of poverty and socially constricting demographic and attitudinal traits.

Both sides of conundrum have been amply captured in a recent book on India . The author Edward Luce concludes that " India is not on an autopilot to greatness but it would take an incompetent pilot to crash the plane "

ଆତ୍ମବିଶ୍ୱାସ

ମଣିଷର ସଫଳତା ପାଇଁ ଯେତେ ଗୁଡ଼ିଏ ଉପାଦାନ ଆବଶ୍ୟକ ସେଥି ମଧ୍ୟରୁ ଆତ୍ମବିଶ୍ୱାସ ହେଲା ସର୍ବ ପ୍ରଥମ । 'ମୋ ହାରା ସବୁ କିଛି ସମ୍ଭବ' ଏ ପ୍ରକାର ମାନସିକତା ହିଁ ବ୍ୟକ୍ତି ପାଇଁ ସଫଳତା ଆଣି ଦେଇଥାଏ । ଅପର ପକ୍ଷରେ 'କାର୍ଯ୍ୟ ଚି କ୍ଷମକର', ଏହା ମୋ ହାରା ହେବ ନାହିଁ ଏ ପ୍ରକାର ଚିନ୍ତାଧାରା ସିଦ୍ଧି ପଥରେ ଚରମ ବାଧକ ଅଟେ ।

ଗୋଟିଏ ଗ୍ରାମରେ ଦୁଇଟି ବାଳକ ଥିଲେ ରାମ ଓ ଶ୍ୟାମ । ଦୁହେଁ ଘନିଷ ବନ୍ଧୁ । ରାମ ସବଳ ପିଲା ଚିପ, ଲମ୍ବା ଚଉଡ଼ା ଚେହେରା ଅପର ପକ୍ଷରେ ଶ୍ୟାମ ଅତି ଦୁର୍ବଳ । ଦୁଇଭାଇ କୌଣସି ଏକ ଲାଗାକୁ ଯାଇଥାନ୍ତି । ବାଟରେ କୁଅଟିଏ ଦେଖିଲେ । ଦୁଇ ସାଙ୍ଗ କୌଣସି ଜାଗା କୁ ନ ଯାଇ କୁଅ ନିକଟକୁ ଗଲେ ଏବଂ ଭିତରକୁ ଅନାଇଲେ । ଅସାଧାରଣତାବଶତଃ ରାମର ହାତ ଖସିଗଲା ଓ ସେ କୁଅ ଭିତରେ ପଡ଼ିଗଲା । ପ୍ରିୟ ବନ୍ଧୁର ଏପରି ଅବସ୍ଥା ଦେଖି ଶ୍ୟାମ କାନ୍ଦି କାନ୍ଦି ସାହାଯ୍ୟ ଭିକ୍ଷା କଲା । କିନ୍ତୁ ସେ ନିଜନ ସ୍ଥାନ ରେ ସାହାଯ୍ୟ କରିବ ବା କିଏ ? କିଛି ଉପାୟ ନ ପାଇ ସେ ପାଖରେ ଥିବା ଶିଆଳି ଲତାଟିଏ ଦାନ୍ତରେ ଛିଣ୍ଡାଇ ଆଣିଲା । ଲତାଟିକୁ କୁଅ ଭିତରକୁ ପକାଇଲା । ରାମକୁ ଲତାଟି ଗୋଟିଏ ପାଖ ଧରିବାକୁ କହିଲା ଏବଂ ନିଜେ ନିଜର ସିମ୍ପଦ ମୁକ୍ତ କରିବାର ଆତ୍ମବିଶ୍ୱାସ ଯାହା ଗ୍ରାମ ବାସୀଙ୍କୁ ଆସମ୍ଭବ ମନେ ହେଉଥିଲା, ତାହା ସେ ସମ୍ଭବ କରି ଦେଖାଇଲା ।

ଦୁଇ ବନ୍ଧୁ ଗାଁ କୁ ଫେରିଆସି ଗ୍ରାମବାସୀ କୁ ଏକଥା କହିଲେ କିନ୍ତୁ ସେମାନେ ଏକଥା ବିଶ୍ୱାସ କରିପାରିଲେ ନାହିଁ । ଶ୍ୟାମ ପର ଦୁର୍ବଳ ପିଲା ଚିପ ରାମ ପରି ସୁସ୍ଥ ସବଳ ପିଲାକୁ ଚାଣି ବାହାର କରିବା ବାସ୍ତବରେ ଥିଲା ଅଶ୍ୱାସ୍ୟଜନକ ଥିଲା । କିନ୍ତୁ ଏହା ସମ୍ଭବ ହୋଇ ପାରିଥିଲା । କାରଣ ତା ନିକଟରେ ଥିଲା ଆତ୍ମବିଶ୍ୱାସ । ବନ୍ଧୁକୁ ବିପଦ ମୁକ୍ତ କରିବାର ଆତ୍ମବିଶ୍ୱାସ ଯାହା ଗ୍ରାମ ବାସୀଙ୍କୁ ଅସମ୍ଭବ ମନେ ହେଉଥିଲା, ତାହା ସେ ସମ୍ଭବ କରି ଦେଖାଇଲା ।

ଅନ୍ୟକୁ କେବେ ହେଲେ ବି ଦୁର୍ବଳ ମନେ କରିବା ନାହିଁ । ଯଦି ସେହି ଦୁର୍ବଳତାରେ ଆତ୍ମବିଶ୍ୱାସ ଭରି ରହିଥିବ ତେବେ ସେ ଦୁର୍ବଳ ପିଲାଟି ମଧ୍ୟ ସବୁ ଅସମ୍ଭବ କୁ ସମ୍ଭବ କରି ପାରିବ । ସତରେ ଆମ ଏ ଜୀବନରେ ଆତ୍ମବିଶ୍ୱାସ ର ବହୁତ ମହତ୍ତ୍ୱ ରହିଛି ।

CONDOLENCE OVER UNTIMELY PASSING AWAY OF A GEM

In the November of this year, a very unfortunate incident occurred. The school including the entire district was left shocked by the demise of class - IX student Subham Swarup Paltasingh of OAV Sandhapur, Jatni who was brutally murdered by an atrocious boy at his own residence, Benapanjari village of Jatni block on 1st Nov 2023 in the evening after returning from school. On that day he was preparing for the half yearly exam that was to be started from next day. Immediately, he was rushed to Khordha Govt. hospital where he was declared dead. Sri Harekrushna Mohapatra, Principal I/c was also present in the hospital. As Principal stated, "We could easily imagine him as one of the best students of our Institute. He had remained a bright and dynamic student scoring above 95%. Not only that he had a figure of discipline and compassion also. As a tribute to the departed soul all 329 students are appearing half-yearly exam with heavy heart."

A condolence meeting was held in the school premises on 2nd November at 9:30 AM. Sri Aditya Baliarsingh, VMDC member and some parents were also present who expressed their deep grief and consoled all the students and teachers by paying tribute to the departed soul. Mr Harekrushna Mohapatra, the Principal I/c along with other two teachers visited the home of Subham Swarup on 2nd November and consoled the bereaved family who had lost their only son untimely. APTM was also conducted on 4th November at 3:00 pm in the school premises regarding the safety and security of students in which the parents unanimously agreed on some rules framed by the school.

A few students in this world have managed to rise above the daily rut that is unique life, and he had managed to distinguish himself as exemplary student. All stakeholders of OAVS Family with heavy hearts stand in solidarity and pray the Almighty give the bereaved family the strength to withstand this tragic moment. May his soul find comfort in his new abode. "You will always be, treasured forever in our memory. We keep in our heart the love of the past, for there it was planted forever to last. Your presence will be missed, remembering you always, forgetting you never."
